

Hello. I am writing to comment on the proceedings of FM translators to LPFM in regards to KLOVE's operations on-air. I DO NOT support this idea in light of the fact that KLOVE is a VERY positive influence on many people's lives. As for myself, there are many times during the week that KLOVE keeps me going by playing positive music with inspirational lyrics. NO OTHER STATION plays music of this fashion constantly. To be able to listen to this station is of great benefit to me and helps me keep a positive attitude throughout the day and help be a positive influence to others that I meet. If KLOVE were to disappear, I sincerely believe my city would notice it in that many Christians might not receive some positive encouragement at a certain time that might again help them to be a bright, loving light to those around them. KLOVE serves everyone, even those who would say that it doesn't. It helps Christians stay positive so that they might keep others positive. I can't tell you the number of times I've been able to be a friend to someone after getting a little help from the friendly DJs on air. I am praying for you and hope that you make the correct decision regarding this issue.

God bless you,  
Bobby Bell
